### PROFILE

---

I've delved into fundamental front-end concepts using HTML, CSS, JavaScript, and Angular.

However, my current focus lies in back-end development with Java. but I'm also studying concepts of architecture, databases, cloud computing, DevOps principles, and much more.

### SKILLS

---

- English (intermediate)
- Java
- Angular
- NodeJS
- Git/GitHub
- HTML
- Markdown
- CSS

### COURSES

---

Bootcamp  
(Java + Angular)

### PROJECTS

---

#### **Pokedex**

Bootcamp (Full stack Java+Angular)

During this project, I used HTML, CSS, and vanilla JavaScript. This page was created with the concept of mobile-first, so I designed everything for mobile devices first and then completed the styling for other types of equipment. I employed media queries to make my page responsive to all types of devices and used JavaScript to both consume the PokeAPI and add dynamic content for the Pokémon.
