SKILLS

- English (intermediate)
- C#
- .NET
- JavaScript
- NodeJS
- Git/GitHub
- HTML
- Markdown
- CSS

COURSES

Bootcamp wex
(.NET and QA)

PROFILE

I've delved into fundamental front-end concepts using HTML, CSS, and JavaScript. However, my current focus is in back-end development with the platform .NET. but I'm also studying concepts of architecture, databases, cloud computing, DevOps principles, and much more.

PROJECTS

Pokedex

During this project, I used HTML, CSS, and vanilla JavaScript. This page was created with the concept of mobile-first, so I designed everything for mobile devices first and then completed the styling for other types of equipment. I employed media queries to make my page responsive to all types of devices and used JavaScript to both consume the PokeAPI and add dynamic content for the Pokémon.
